Commissioners Court confident in growth of Rackspace in Bexar County

Rackspace has been a valued member of our economy since 1998, and we view this as a positive move for both the company and Bexar County. We have known for a while that Rackspace leadership was looking for investment alternatives to grow its business with the flexibility its customers seek. With Rackspace's leadership staying in place, we are confident the company's global headquarters will remain based in San Antonio.

The local tech ecosystem owes a lot of its success to the presence of Rackspace, and it is that very strength of the industry that will allow Rackspace to expand here. Graham Weston has been the consummate champion of our community and continues to invest his personal time and wealth in the transformation of our urban core. This transaction can only accelerate and expand those investments.

We also welcome Apollo Global Management to Bexar County and look forward to collaborating with them in the future.
