TRAFFIC ADVISORY

PORTION OF BINZ-ENGLEMAN ROAD WILL CLOSE SEPTEMBER 25

Closure part of Bexar County's \$7.6 million Rosillo Creek Flood Control Project

Bexar County will close a section of **Binz-Engleman Road** in the City of Kirby **at the bridge crossing between Ackerman Road and James Lovell Drive**. The road will close on September 25, 2013 and will remain closed for approximately seven months, until mid-April 2014. Access to local businesses will be maintained throughout the duration of the closure.

The road closure is the result of work in the area on the \$7.6 million Bexar County Rosillo Creek Flood Control project that will improve flooding through channel improvements and the construction of multiple bridges and bridge-class culvert crossings between FM 78 and Ackerman Road. The project is funded through the Bexar County Flood Control Program, a 10-year, \$500 million capital improvement program funded in 2007 to address some of the community's most serious flooding problems. For more information, please visit www.BexarFloodControl.org.
