

Walzem Road

Bexar County Public Works

Walzem Road Project

From Union Pacific Railroad Right-of Way To FM 78

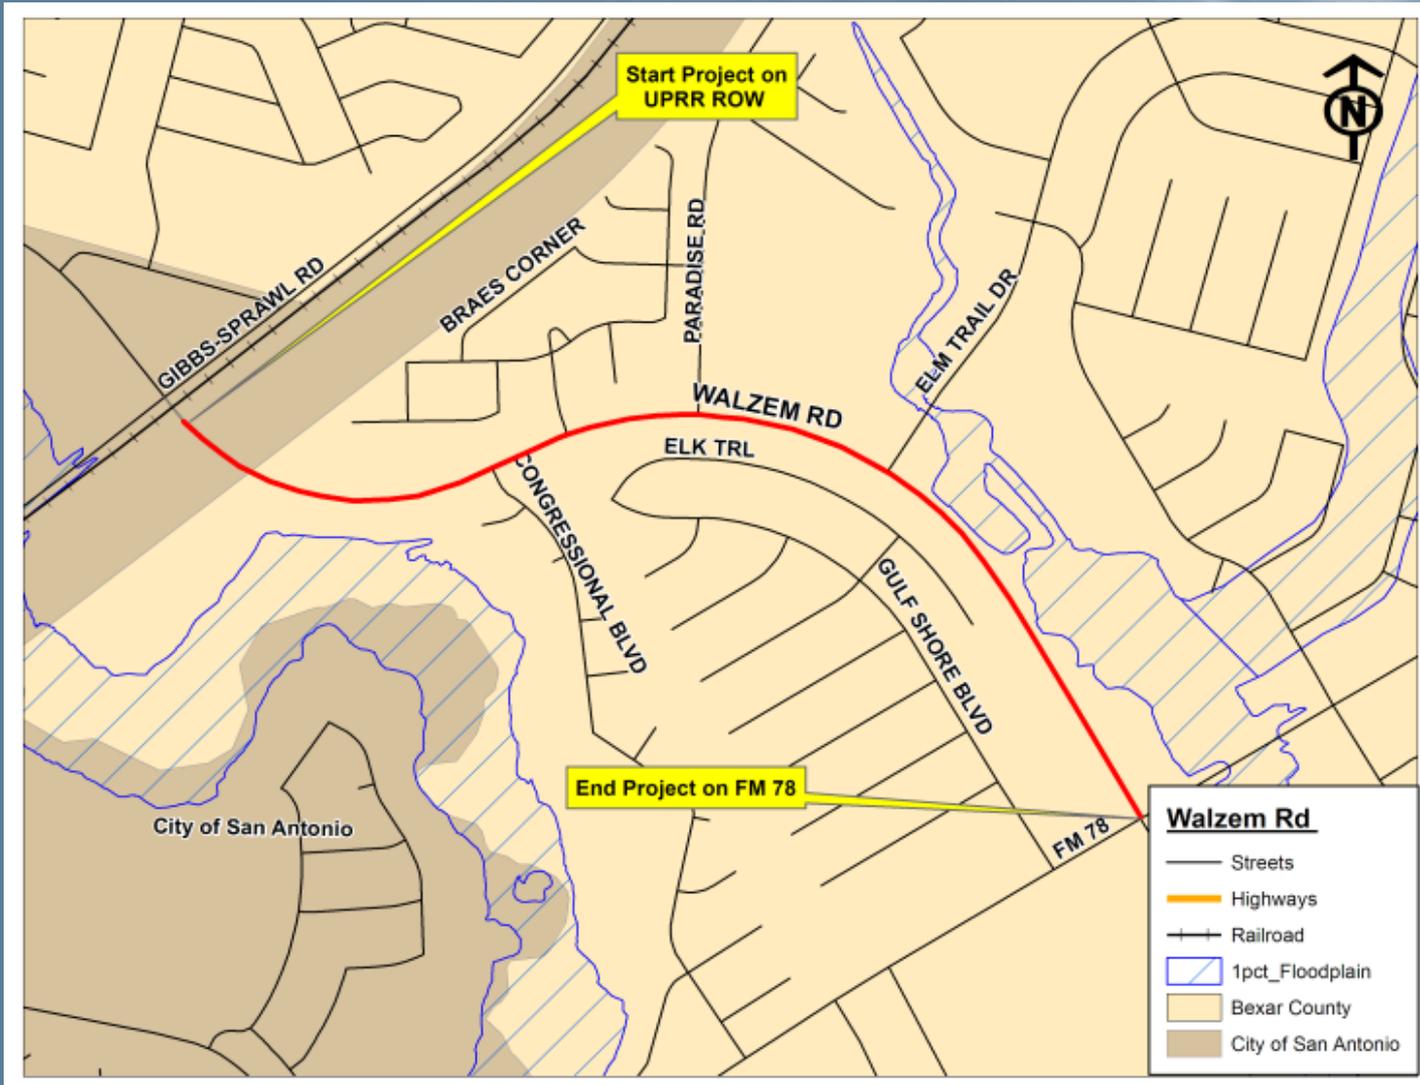

Walzem Road

Public Meeting Agenda

1. Welcome and Introductions
2. Remarks
3. Presentation
4. Open House (Q & A With Project Team)

PROJECT LOCATION

Walzem Road

Overview

- Walzem Road from Union Pacific RR ROW to FM 78 is approximately 1.08 miles
 - Project will rehabilitate the existing five lane section.
 - 5' Sidewalks will be added to both sides of Walzem Rd.
 - Additional cross drainage structure will be added at the east end of the Ventura Subdivision.
 - Cross drainage structure near FM-78 will be replaced.
 - Drainage ditches will be re-graded to improve capacity.
 - Replace the existing signal at Elm Trail Drive.
 - VIA bus stops will be relocated along Walzem.
 - Project is funded by Bexar County.

Walzem Road

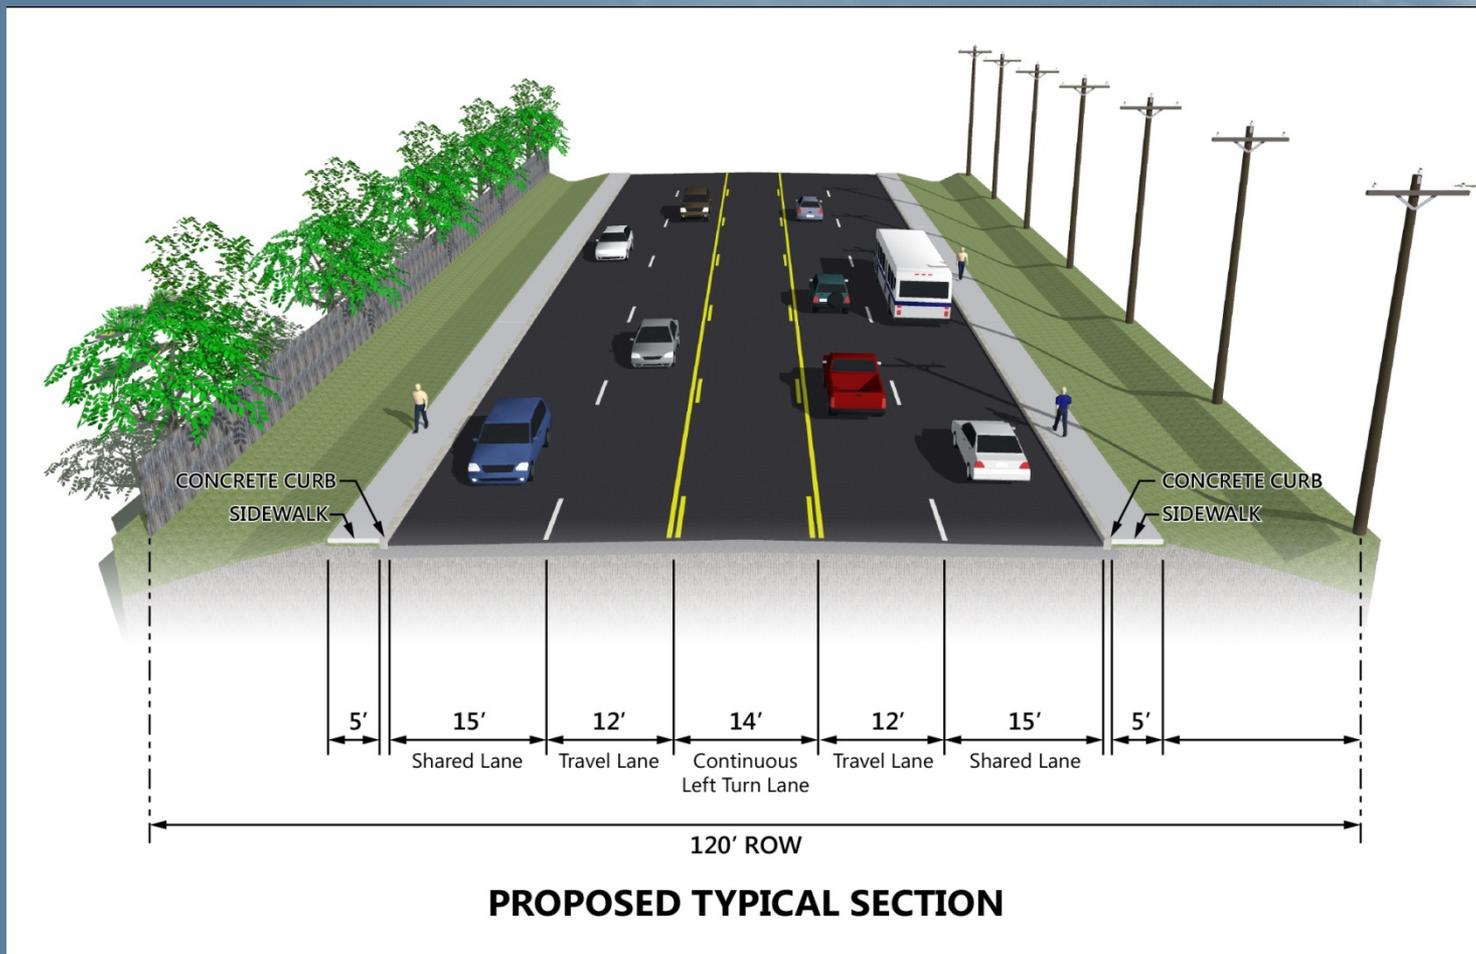

Project Improvements

Walzem Road

Proposed Typical Roadway Section

Walzem Road

Environmental Study

- Identified waters of the U.S. (ponds and wetlands)
 - Potential notification of U.S. Army Corps of Engineers
- No potential habitat for threatened or endangered species
- No anticipated impacts to cultural resources.
- Woody vegetation potential habitat for migratory birds
 - BMPs to avoid impacts to migratory birds

Walzem Road

Construction Sequence/Timeline

- Construction is anticipated to begin in 1st Quarter 2015 and end in 1st Quarter 2016
- Utilities and drainage structures will be installed first
- Roadway will be built in half sections, maintaining one lane open in each direction.
- Construction will be limited to daylight hours only
