

# San Antonio Freeways

## Under 1,100 Freeway Lane Miles, 2005

- San Antonio has an extensive freeway system for its population
- It is the only Texas city with a sales tax dedicated to State road projects
- Some cities have only about half of the lane miles of freeway per person that San Antonio has
- All of the other 10 cities in this class have higher personal incomes than San Antonio and 6 of the 10 have a shorter commute time
