### **West Patrol Substation will be second for Sheriff's Office**

Bexar County Commissioner Sergio "Chico" Rodriguez and Bexar County Sheriff Susan Pamerleau broke ground today on the second permanent patrol substation for the Sheriff's Office. The substation located in West Bexar County moves deputies closer to the communities they serve and to high call response areas with immediate access to major highway systems to respond elsewhere in the County when needed.

"I am so happy that Commissioners Court was able to find the funds to provide a permanent substation for our dedicated deputies," Commissioner Rodriguez said. "Our community deserves the very best, and I am proud to have been a driving force to make this happen."

The 5-acre site for the 13,500-square-foot facility is county-owned land on Cagnon Road near Loop 1604 and U.S. 90. Sheriff's Office patrol deputies are currently based out of the Sheriff's Training Academy on Gillette Boulevard. County officials broke ground on the first permanent substation earlier this month in Northeast Bexar County.

"These substations will enhance our ability to keep Bexar County safe," said Sheriff Pamerleau. "They will provide a more visible presence in the communities we serve, improve response times and reduce costs — all to focus more on public safety for Bexar County and its citizens. These substations also will provide more convenient and closer access for citizens if they have been a victim of crime, rather than having to come Downtown."

Construction is expected to be complete in late 2017.
