**Bexar County Resources Available
During Period of Elevated Heat**

Bexar County is preparing for a few days of unseasonably hot weather. Temperatures are forecasted in the triple digits, with heat indices even higher. For this coming weekend and possibly Monday, heat conditions are anticipated to be hazardous for people and animals.

Bexar County, in cooperation with our Emergency Services Districts, will open two cooling centers, complementing the City of San Antonio's 16 locations, which can be found [here](#).

- **Bexar County Emergency Services District 10 Fire Station**
9100 S. Loop 1604 E, San Antonio, TX 78223
- **Bexar County Emergency Services District 5 Fire Station**
7120 E. 6th Street, Somerset, TX 78069

Both cooling centers will be open to the public on Saturday (5/7/22) and Sunday (5/8/22) from 12:00 p.m. to 8:00 p.m. Each location will be staffed with emergency personnel to assist residents who seek shelter from the heat. Water and light snacks will be available.

Bexar County is also working with Meals on Wheels of San Antonio to conduct home safety checks for seniors in unincorporated Bexar County and 26 suburban cities.

Safety tips, cooling center locations and other resources can be found at bexar.org/heatsafety.
