Illegal Dumpers Now in The Can

Environmental crimes investigators with the Bexar County Department of Environmental Services were made aware of a significant illegal dumping problem in the 8000 block of Chipping Drive in unincorporated Bexar County. They found that several hundred pounds of garbage had been dumped in that area.

In order to identify the suspect(s), investigators installed surveillance cameras in the vicinity of the dumping location. The video surveillance soon delivered results. The footage revealed the suspect(s) dumped trash on more than one occasion. The following individuals were identified from the surveillance video as suspects:

- Deangelo Lee Lyguane Over (22)
- Amber Na Montraile Hughes (21)
- Jamaris Raheem Thomas (20)

The Bexar County Investigators obtained arrest warrants for all individuals and with assistance from the Bexar County Fire Marshal's Office and the Bexar County Sheriff's Office safely took them into custody on Thursday, June 23, 2022. They were booked into the Bexar County Adult Detention Center on charges of Illegal Dumping (HSC Sec. 365.012), a Class B Misdemeanor (greater than 5 pounds, less than 500 pounds).

Director of Bexar County Environmental Services Javier Flores said, "It was the attitude and the obvious disrespect for their fellow residents that really stuck out to us. Illegal dumping is more than a nuisance. It creates health and safety hazards and is expensive to clean up."

For tips or information on illegal dumping within unincorporated Bexar County send an email to illegaldumping@bexar.org.
