**Bexar County Commissioners Court**  
**Selects Bexar County Engineer/Public Works Director**

Bexar County is pleased to announce the selection of Art Reinhardt, PE, CFM, as the finalist for the Bexar County Engineer/Director of the Public Works department. This court action follows a thorough and deliberative selection process, culminating in a vote by Commissioners Court today. Mr. Reinhardt will be stepping into the role previously held by Renee Green, who retired in May 2023 after over 20 years of service to the Public Works department.

Possessing over two decades of extensive engineering experience, Mr. Reinhardt is a seasoned professional known for his leadership, credibility, and commitment to excellence in both private development and municipal public works. His tenure includes significant roles at leading consulting firms and the City of San Antonio where he has demonstrated an exceptional ability to lead and expand operations. He understands the profound impact infrastructure can have on the lives of community members, especially those most vulnerable.

Mr. Reinhardt's professional journey is characterized not only by his meticulous, detail-oriented work ethic but also by his aspiration to effect positive change at both local and regional levels. His selection as the finalist for this role signifies a progressive step in the continuation and elevation of the Bexar County Public Works department's legacy of excellence and innovation. Next steps include a formal offer by the county including salary considerations and a start date.

Commissioners expressed their gratitude to David Wegmann, PE, CFM, who served as interim Director of Public Works. A transition period will follow to allow for a seamless handover of responsibilities, ensuring the continuity and efficiency of ongoing projects and initiatives. Bexar County looks forward to Mr. Reinhardt's guidance and foresight in advancing our community's welfare through exceptional engineering acumen and leadership.
