

PUBLIC WORKSHOP #2

FOR IMMEDIATE MEDIA RELEASE: January 27, 2014

Public Workshop on Land Use Study around Joint Base San Antonio-Seguin Auxiliary Airfield

The public is invited to participate in an interactive workshop in support of developing the Joint Land Use Study (JLUS).

The JLUS is a cooperative planning effort between Joint Base San Antonio (JBSA)-Randolph and the surrounding communities. The objective of the study is to develop a set of recommendations that will promote well-suited compatibility growth and economic development compatible with military training and operations being conducted at JBSA-Randolph, JBSA-Seguin Auxiliary Airfield, and Stinson Municipal Airport.

The purpose of the second public workshop is to provide an update on the JLUS project, present the JBSA-Randolph military mission footprint, and to obtain input from the public on prioritizing the compatibility issues, such as, land use, noise and vibration, aircraft safety zones, vertical obstructions, and interagency coordination.

There will be four public workshops held throughout the JLUS process; this is the second in the series.

The second public workshop will be held on:

Date: **Wednesday, February 12, 2014**

Time: **6 pm**

Location: **Schertz Civic Center
Bluebonnet Room
1400 Schertz Parkway
Schertz, TX 78154**

The public is encouraged to attend this workshop. It is critical to obtain input from the community in order to develop a plan that is responsive to local needs. Residents are encouraged to attend the public workshop to provide their input on local land use issues relevant to the JLUS.

For more information, about the JLUS project:
