INTRODUCTION

The Investment Policy provides the Alamo Regional Mobility Authority (Alamo RMA) with the flexibility and control required to execute investment transactions and manage the investment portfolio. The Policy incorporates the investment guidelines from the Texas Public Funds Investment Act (PFIA), as amended. The Alamo RMA's investment strategy for all investments is to assure availability of funds to meet cash flow requirements, safeguard and preserve principal, maintain liquidity, practice security diversification, minimize risk, and maximize yield, all within the context of understanding the suitability of each investment and cash flow requirements of the Alamo RMA.

All investments shall be made in compliance with the PFIA, Chapter 2256 of the Texas Government Code. All investment transactions will be settled on a delivery versus payment basis. All funds shall be invested in accordance with the Prudent Investor Rule (PFIA 2256.006). The Prudent Investor Rule means Investments shall be made with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived.

INVESTMENT OBJECTIVES

The Alamo RMA shall manage and invest its funds with four primary objectives, listed in order of priority: safety of principal, liquidity, yield, and public trust.

Safety of Principal

An essential investment objective is to ensure safety of the principal amount of every investment, as well as the accrued interest thereon. The Alamo RMA's investment practice is to exercise diligence in the type of securities purchased and the scheduled maturities of such investments to minimize loss of principal due to credit failure or other risk. The suitability of each investment and the cash flow requirements of the Alamo RMA are incorporated into the daily cash flow position analysis and investments are scheduled to mature on a timely basis to meet the Alamo RMA's on-going cash needs. Investments are scheduled to mature to match estimated daily routine cash needs, payroll dates, construction draw down schedules, debt service payment dates, and other projected cash requirement dates.

Liquidity

The investment portfolio shall be structured with diversification and securities that have high credit ratings and are liquid in nature. Fund balances, revenues and expenditure trends shall be studied and monitored to facilitate investment planning in accordance with the cash flow timing, purpose, use, and strategies applicable to the Alamo RMA's various funds.

Yield

The Alamo RMA will strive to maximize the return on its investments within the aforementioned safety parameters. While investments are made with scheduled maturities to coincide with estimated cash flow needs, opportunities to enhance the portfolio's return through the sale of securities prior to maturity may be exercised if deemed practical and prudent.

Public Trust

All participants in the Alamo RMA's investment process will seek to act responsibly as custodians of the public trust. Investment Officers will avoid any transaction that might impair public confidence in Alamo RMA's ability to administer investments effectively.

All security transactions, with the exception of investment pools and money market funds, shall be on a delivery vs. payment basis with funds released only upon successful delivery of securities into the safekeeping account. Investment transactions shall be executed by the Alamo RMA's designated Investment Officers.
