The purpose of this Request for Information (RFI) is to gauge industry interest from both public and private entities in partnering with the Alamo Regional Mobility Authority (RMA) to **a)** develop new delivery methods for transportation projects and/or **b)** develop new revenue sources or identify revenue sharing arrangements that would provide the Alamo RMA increased capacity to complete additional transportation projects. For a list of potential transportation projects, please reference Section 2.1 of this RFI.

The Alamo RMA is seeking innovative ideas by which it can leverage its legal authority and/or financing capabilities to expand the scope of the projects under the Alamo RMA's umbrella and increase its overall footprint in the community. This may be accomplished via a partnership with another public entity or a public private partnership (P3) arrangement. This RFI is not intended to be comprehensive. Each respondent is responsible for determining all factors necessary for submission of a comprehensive response.

1.2 ALAMO RMA OVERVIEW

The Alamo RMA is an independent governmental agency created by the Texas Transportation Commission pursuant to the request of Bexar County Commissioners Court.
