Bexar County Announces $50,000 CDBG Investment in Von Ormy City Park Enhancements

Von Ormy, TX – Bexar County is thrilled to announce a Community Development Block Grant (CDBG) investment of $50,000 in Von Ormy City Park. This initiative underscores the County’s commitment to enhancing public spaces and fostering community well-being.

The project involves the addition of vital amenities to Von Ormy Park. Key improvements include the installation of a shade structure which will ensure visitors will enjoy the park comfortably during the warmer months. Additionally, the park will see the installation of solar lighting.

These upgrades not only augment the park's usability but also complement previous investments made by the county. The new amenities are designed with the community in mind, offering enhanced recreational opportunities for families, fitness enthusiasts, and nature lovers alike.

"Bexar County is dedicated to investing in our communities, and the development of Von Ormy Park is a testament to this commitment," said Rebeca Clay-Flores, Commissioner Precinct 1. "Exercise and fresh air are a vital part of encouraging preventative and mental health, and these enhancements will make the park more accessible for everyone."

"Von Ormy is grateful to have the support of Bexar County and appreciates the investment for our community," says Von Ormy Mayor Casey Homer. "These solar lights and shades add value to the quality of enjoyment of our city park regularly utilized by all ages of our community."

The CDBG program, funded by the U.S. Department of Housing and Urban Development (HUD), enables local governments to address a wide range of unique community development needs in low-to-moderate census tracts. Bexar County’s strategic utilization of these funds for Von Ormy Park demonstrates a focused effort on improving quality of life and ensuring equitable access to recreational facilities throughout the county.
